I included individual ticket sales under \$50 on form 4244 and therefore the total revenues indicated here are included in the disclosure on form 4243. I have since then been advised by Elections BC that the total sales recorded on this form 4249 should also be incorporated into those totals. This would result in a duplicate recording of the contributions received through the ticket sales to this event, overstating them by a factor of 100%. I assume that this is not the result you wish, and therefore I have not totalled them (redundantly) back into 4244 and 4243. I trust that this is acceptable. Please advise if you require further information.
